5.1 When we analyse a piece of music or a song. We can see different sections. When it has two parts it is called binary form. (AB)

When it has three sections, two parts will sound the same with something different in between. This is called ternary form. (ABA)

Give examples of the songs and their forms, that you did in class. List any 2:

Question 6:

Read the following text and answer the questions that follow:

WHO PLAYS THE DRUMS?

Many drums are not allowed to be played by both men and women; some are played by men only, and others by women. Big drums are played by men only. They must stand while they play the drums. Beginners are not allowed to take part in group performances. They must first have long training sessions.

Drumming Techniques:

This requires a lot of skill. You can play it with a flat hand in the middle of the drumhead or holding four fingers straight, flat and firm hitting near the rim of the drum.

6.1 Who will play the big drums? _____ (1)

6.2 Name 2 drum techniques used to create different sound effects?
_____ and _____ (2)

6.3 Why are beginners not allowed to play in group performances?
